

LEGACY DATA PLATES

A way to honor someone important in your life.

Visitor's Entrance Walkway
Artist's Conception

The Air Force Museum Foundation is proud to offer an exciting new way to honor outstanding airmen, patriots and loved ones. In early 2012, a new recognition wall will be placed near the entrance of the National Museum of the United States Air Force® for all to see.

Made of aviation-grade stainless steel with chemically-etched custom messages, these 4"x8" Legacy Data Plates will last for generations. In addition, you can provide a short biographical narrative (250 word max.) that will be displayed on the Foundation's website to further complement the plate's message.

ORDER YOUR LEGACY DATA PLATE TODAY

All text will be automatically centered on each Data Plate.
